

NEWS RELEASE

FOR IMMEDIATE RELEASE – January 11, 2024

Public Safety Contract with the Town of Bennett

Adams County, Colo. (Jan. 11, 2024):

The Adams County Sheriff's Office has been made aware of the Town of Bennett's desire to seek alternatives to having us provide law enforcement services for the town's residents and businesses. As an agency, we are committed to ensuring a seamless transition as the Board of Trustees determines the future of their public safety services. We value the relationships built and strengthened with the Town of Bennett community and will work with the Town of Bennett through this process.

This process involves many steps, such as emergency services dispatch, dedicated personnel for Bennett schools, staffing needs, etc. We are committed to helping in this process and want the best possible outcome for the Town of Bennett, its residents, businesses, and stakeholders.

We are encouraged that one of the options that are being pursued is a public safety contract with the Arapahoe County Sheriff's Office. We applaud the Board's consideration of a reputable, capable, and devoted law enforcement agency and look forward to the possibility of collaborating with them through this shift in services.

-End-
